The nation’s opioid crisis has resulted in increased scrutiny on physicians and how they run their practices, including writing prescriptions, documentation, and other processes. This breakfast presentation and Q&A, hosted by Brach Eichler LLC, will cover what physicians need to know now in the wake of additional regulation. Among the topics:

- New rules for prescribing opioids and the necessary documentation
- The critical issue of EMR maintenance
- Consequences of noncompliance
- The physician as employer: Legal obligations and liabilities arising from opioid use in the workplace
