10/1/2025

On September 15, 2025, the New Jersey Board of Medical Examiners proposed amendments to the [regulations](#) governing the use of medical cannabis. These amendments would update language used throughout the regulations to reflect the same terminology used in the Jake Honig Compassionate Use Medical Cannabis Act. Among the proposed amendments, the Board is seeking to require that physicians have a US DEA registration and complete the curriculum established by the New Jersey Cannabis Regulatory Commission in order to participate in authorizing medical cannabis use to patients. In addition, the amendments would require participating physicians to be responsible for the ongoing treatment of a patient's qualifying medical condition. Comments to the proposed amendments are due by November 14, 2025.
