

Fanburg and Walzman Talk Telemedicine in Medical Economics

Telemedicine continues to grow as a viable and popular mode of health care delivery. There are issues that providers should be aware of, however, in order to succeed in today's heavily regulated environment. In this three-part series in *Medical Economics*, "Telehealth and the Law," Brach Eichler Managing Member and Health Law Chair [John D. Fanburg](#) and Health Law Associate [Jonathan Walzman](#) address three critical issues that must be carefully considered:

"Telehealth and the Law: How Policy Shapes the Marketplace"

"Telehealth and the Law: The Challenge of Reimbursement"

"Telehealth and the Law: Addressing the Risks"
