3/1/2026

[Senate Bill No. 3264](#), introduced on February 2, 2026, would require health insurance carriers in New Jersey to use the federal resource-based relative value scale (RBRVS) when setting reimbursement rates for certain medical evaluation and management services. The Bill specifically targets billing codes appended by “modifier 25,” which indicates a significant, separately identifiable service beyond another procedure performed the same day. The Bill would apply to insurance companies, HMOs, and the State and School Employees’ Health Benefits Programs.
